

DESIGN OF THE MULTI-COLOUR IMPRESSION STAMPS

- Provide your custom stamp imprint with more colour

IMPORTANT INFORMATION

Multicolour stamp inprints must have a space of at least 2.5mm between the letters or characters in the different colour fields. The minimum size of any colour field must be 8mm x 8mm.

The maximum number of text lines per stamp might be different because of the required distances (2.5mm), character size used and the size of the colour fields (minimum 8mm x 8mm).

1

2

- 1) Colours cannot touch
- 2) No colour gradients, each colour must be one solid colour, you can not blend colours together.
